Guided tours

Gran Canaria island offers much more than the typical tourist resorts to enjoy sunbathing, surfing and swimming on wonderful beaches. The city and the island are full of historical sites and charming routes that are worth visiting. For this we recommend all AEDEAN delegates to directly contact BILENIO. It is a local company that organizes guided tours (for unbeatable prices) to emblematic places of great cultural interest on this island and even one-day trips to others. They work mainly for local primary and secondary schools and associations but also for the general public. All the information is available at <https://bilenio.com/rutas-y-visitas-culturales/>.
